SKILLS

C | C++ | PYTHON | SQL | HTML | CSS | JavaScript | Django | Machine Learning – Basics

EDUCATION

- Artificial Intelligence and Data Science | JECRC Foundation, Jaipur CGPA: 8.6 | 2021-2025

EXPERIENCE

- **Data Science Trainee | Clarista, Pune** July'23 – October'23
 - ❖ Mastered SQL and implemented PostgreSQL for efficient data management, focusing on database structures and query optimization.
 - ❖ Contributed significantly to the development of a Food Delivery Notification System using Django, REST, and Docker, optimizing backend processes for an enhanced user experience.
 - ❖ Acquired foundational knowledge in Large Language Model (LLM) training, contributing to future applications and technological advancements.

PROJECTS

- **Diamond Price Prediction**
 - ❖ Led the development of a method for anticipating diamond prices using machine learning techniques, which increased prediction accuracy.
 - ❖ Modelled and analyzed complex data using Python-based machine learning frameworks, resulting in a reliable and effective prediction tool.
- **E-Commerce Website**
 - ❖ Developed the frontend of an online e-commerce website using HTML, CSS, and JavaScript, ensuring a user-friendly and visually appealing interface.
 - ❖ Implemented responsive design principles for seamless accessibility across devices, enhancing the overall user experience.

POSITION OF RESPONSIBILITY

- **Model United Nations | JECRC MUN, JECRC Foundation** 2022 – Present

Head of Public Relations and social media, JECRC Model United Nations (MUN) Club: Directing PR campaigns and social media campaigns strategically, increasing participation and improving the club's online visibility.
